

International Journal of Engineering and Science Invention

e-ISSN : 2319-6734

p-ISSN : 2319-6726

Contents :

Commercial aspect of Telemedicine in Indian scenario	01-06
Application of lean manufacturing tools for the improvement of production processes in the textile company Cheila CyC	07-16
Mastering Project Success: Exploring the 5 Levels of the Capability Maturity Model (CMM) and its Impact on Saudi Arabian Projects	17-28
Evaluation of fluoride levels in the ground water wells in the Western part of Jifarah plain area, Libya	29-35
A Review on Increase Leach Protocol Lifetime for Wireless Sensor Networks	36-39
Literature review for highway Safety Methods to Be Adopted by Civil Engineers	40-44
Hydrological Analysis of the Impact of Black Water Polder Revitalization in Samarinda City	45-52
Effect of Marble and Glass Industrial Wastes on the Properties of High Strength Concrete Containing nano- Silica	53-66
A Study of Extraction of Metals with Aqueous Two Phase System for Ionic Liquids	67-73
Metal and Non Metal Segregator	74-76
Legal Regulation on the Abuse of Administrative Litigation Right - Thoughts based on the "Lu Hongxia case"	77-97
Synthesis of 1-(6-Chloro-2-methyl-4-phenylquinoline) ethanone using different heterogeneous catalysts in dry media under microwave ir-radiation.	98-100
Multifunctional Nanomaterials for Environmental Remediation	101-110
Quantitative analysis of Variation in physiochemical properties of fly ash with increasing sand percentage	111-120
