

International Journal of Engineering and Science Invention

e-ISSN : 2319-6734

p-ISSN : 2319-6726

Contents :

Climatic potential: Starting point for the design of Residential housing	01-07
Design and Analysis of Frame of an Electric Bike	08-16
Treatment Methods of Distillary Spent Wash: A Review	17-23
Extraction automatique des linéaments à l'aide d'images satellitaires optique et radar en milieu de socle précambrien (Haute Marahoué, Côte d'Ivoire)	24-32
A Multi-stage Stochastic model for a multi-product closed-loop supply chain network design	33-45
Shake Table Experiment on Reactor Vessel	46-49
A Review on Tcp Variants with Mobile Ad Hoc Network	50-54
Wireless Sensor Network- Framework on Issues, Challenges, Threats and Safety Efforts	55-59
Exploiting the Extract Constituents of Pentaclethra Macrophylla Bentham (Ugba) Leaves in the Corrosion Inhibition of Mild Steel in Acidic Media	60-71
Implementation of Ant Colony Algorithm Review	72-89
Plant DNA amplification fingerprinting: a strategy for plant genomic analysis	90-93
Green Chemistry: A New Trend in The Chemical Science To Protect Our Environment	94-95
A Study of Polluted fresh Water Ecosystem in Zooplankton Biodiversity	95-100

IJESI

Volume 8, Issue 1, January 2019
