Contents :

Development of Water Scrubber for Removal of CO ₂ from biogas	01-03
Design of Digital Filter by particle swarm optimization algorithm	04-09
A Review on Influence of Ozone and Pasteurization on physico-chemical properties, Microbiology, and stability of milk	10-15
A Case Study of Structural Failure of Mounting Systems for Solar Panels from South-Eastern Turkey: An Investigation of Design Parameters under Extreme Weather Events	16-23
Management of Protected Areas and sustainable use of Caatinga Biodiversity in Brazil	24-34
Selection of a Scheduler (Dispatcher) within a Datacenter using Enhanced Equally Spread Current Execution (EESCE)	35-39
A Review of Pallet Conveyors Design Methodology	40-46
A Study on Analysis of Higher Education in India	47-52
Preparation and Characteristics of N-Hydroxyamidines	53-56
Violence against Doctors in Healthcare Centers Case Study: "Benghazi Medical Center"	57-71
A Review Paper on-Movable Wall System A Flexible Solution for Every Space	72-75
Combined Effects of Sawdust and Rice Husk Ashes on Concrete Exposed To Sulphate Environment	76-80
Bioremediation of Organic wastes arising from Drinking Water Treatment by white rot fungus	81-86
Satellite and Natural Image Denoising Using Singular Difference Butterworth and Sliding Deep Neural Network	87-98
Quantum Nanoparticles and its Various Applications	99-101
