e-ISSN : 2319-6734

p-ISSN : 2319-6726

Contents :

Development of Deterministic Model between Peak Discharge(Qp) & Duration(D) of Unit Hydrograph and Comparison of 'US Army Corps of Engineers' recommendations with the present Study at Kharkai Barrage site on river Subarnarekha, India.	01-09
Dr. Manas kumar mukherjee., Mr. Shibshankar Nandy	
Removing Noise from Voice Signals Using Height Adjustable Triangular (Hat) Window Based digital Filters	10-25
Mbachu, C. B, Okpagu P. E., Akaneme S. A.	
Challenges facing Governmental policies dealing with informal urban expansion in peri-urban areas in Egypt	26-34
Hieder. R	
Detection of Glaucoma Disease from Optical Images Using Image Processing and Machine Learning Techniques	35-40
Kajal Patel	
The Application Research of Optimal Control Arithmetic to pumps operation	41-45
Zhengguo LI, Xiaoli SUN	
Critical Factors Limiting the Performance of Small-Scale Construction Firms in Nigeria	46-57
Ali I. F., Prof. Awad S.H. and Dr. Abdulsalam D.	
Investigating the Effect of Highway Geometric Design on Safety, Using a Safety Indicator with in the Design Manual.	58-63
George Ukam	
Assessing Modular Kitchen through an Ergonomic Lens: A Case Study	64-72
Dr. Nidhi Gupta, Ekta Pandya	
Detection and Classification of Blood samples using Soft Computing Techniques	73-78
RUCHI JOGI, AVINASH DHOLE	
Dynamic Model of Melting - Investigation of Stability for Nanopyramid of Spherical Atoms	79-94
Jumber Khantadze, Levan Chkhartishvili	

IJESI

Volume 8 ~ Issue 8, Series.2 (August. - 2019)
